Background

In 2013 the New York State Empire State Development Corporation approved Suffolk County’s application to establish a Land Bank, which is a not-for-profit entity that gives a municipality (i.e. Suffolk County) the ability to acquire, dispose of and/or redevelop tax foreclosed properties and tax liens located throughout Suffolk County, including sites previously deemed unsuitable for acquisition, such as brownfield and superfund sites, which had been previously denied for tax foreclosure by the County, due to potential environmental liability. The resulting organization, known as the Suffolk County Landbank Corp. is in the process of facilitating the return of these vacant, abandoned, underutilized, environmentally-challenged and tax-delinquent properties to productive, tax-paying uses consistent with

the comprehensive plans of the jurisdictions in which they are located. It is anticipated that the redevelopment of these properties will result in an increase to the property values of surrounding parcels, stabilize the tax base, and improve quality of life for neighborhood residents.

Area Description

Suffolk County

Suffolk County, with a population of 1.5 million, is Long Island's eastern-most county, and covers an area of approximately 900 square miles, 20 miles at its widest part and approximately 86 miles in length.

According to the U.S. Bureau of Economic Analysis, total personal income of all County residents amounted to \$85.4 billion in 2013. The County's 2013 per capita personal income was \$56,940, ranking 5th highest out of the 62 counties in New York State and 160th (in the top 5%) out of all counties in the nation. According to the U. S. Census Bureau, the median household income in the County was \$86,266 in 2014, ranking it in the top 1% out of all counties in the nation and placing it 64% higher than the median household income in the nation as a whole. The average annual salary for County residents in 2014 amounted to \$54,603, 9% higher than in 2009, slightly less than inflation.

Assets – Suffolk County offers tremendous assets to businesses and residents of Suffolk County. The world renowned beaches and parks, Suffolk County Wine Country, vibrant downtowns and proximity to New York City improve the quality of life for residents and make it a desirable place to live. Businesses have access to a highly educated and skilled work force and can continually recruit from our award winning universities and schools. Furthermore, businesses can collaborate with our leaders in the tech and science industry including Brookhaven National Lab, Stony Brook University and Cold Spring Harbor Lab.

Future – The future for Suffolk County is bright under the leadership of County Executive Steve Bellone. The Connect Long Island Plan will provide more public transit options that link transit oriented developments to universities, research centers, job centers and parks and open space. This plan, in coordination with other initiatives is already spurring growth in Suffolk County's innovation economy and sustaining Suffolk County's status as a wonderful region to live and work.

Governmental Organization

In New York State, local governmental services are provided by counties, cities, towns, and villages. The County provides police and law enforcement services, economic assistance, health and nursing services, and preservation of open space along with numerous other services. Land use decisions are made by the towns and villages.

Organizations coordinating this transaction

Terms and conditions of a successful purchase agreement are subject to negotiations and approval via duly adopted resolution of:

- **The County of Suffolk**
 - Under the Suffolk County Tax Act, commercial real estate taxes which are unpaid for a year result in a lien, giving Suffolk County the right to issue a deed to a buyer of the lien.

SUFFOLK COUNTY LANDBANK CORPORATION
TAX-DELINQUENT OPPORTUNITY SITE REQUEST FOR PROPOSALS – TERMS AND CONDITIONS

- It is expected that the tax liens for the Site will be transferred to the SCLBC via duly adopted resolution of the Suffolk County Legislature shortly after proposals are approved.
- Suffolk County will issue a tax sale certificate to the SCLBC which will then, in turn sell the lien to the selected Proposer. The selected Proposer, will in turn- take title to the property via tax deed and remediate and redevelop the property under existing local, state, and federal regulations and programs.
- **The Suffolk County Landbank Corporation**
 - As referenced earlier, the SCLBC is a not-for-profit public benefit corporation, separate from Suffolk County, charged with the mission of efficiently facilitating the return of distressed and underutilized properties within Suffolk County to productive uses consistent with the comprehensive plans of the jurisdictions in which they are located.
 - The SCLBC is the organization issuing this RFP, and may review and select a qualified proposer.
 - Any disposition of real property or interests thereof will require approval via duly adopted resolution of the SCLBC Board of Directors.
 - All properties provided through this process will be provided clear of back taxes from prior years, as well as NYS incurred cleanup costs (if applicable to the site)

RFP Objectives

It is the desire of the SCLBC to see the properties redeveloped in a responsible manner by a qualified organization(s) or business(es) for economic development purposes that benefit the surrounding community. A successful proposal will be one that seeks to create sustainable economic activity, improve the environmental condition of the property, and potentially improve surrounding property values. A successful proposal will propose an eventual land use / redevelopment plan, which aligns with community planning goals or current zoning regulations, and contains a bid amount satisfactory to the SCLBC and County.

END OF SECTION

SECTION 2
SELECTION/EVALUATION CRITERIA

The SCLBC will evaluate each proposal according to the selection criteria outlined below.

Proposer Qualifications

- Number, size, complexity and scale of recent development projects built and managed;
- Capacity for undertaking the proposed development within the timeframe proposed;
- Experience in the satisfactory remediation of other brownfield sites;
- Experience in proposed use – if applicable.

Program and Design

- The overall quality of the Proposal and the extent to which the Proposal contributes to the achievement of community land use goals;
- The extent to which the Proposal achieves design excellence. The following elements, among others, will be considered: site planning, street wall elevations, massing, building materials, amenities, and streetscape treatment;
- The extent to which structures complement and elevate the level of design in the neighborhood.

Feasibility

- Proposer's demonstrated financial condition to complete the proposed development, and the feasibility and availability of financing sources;
- Proposer's ability to support the financial assumptions contained within the Proposal including development costs, rents/sales prices, operating expenses, capital costs and debt service;
- The long term viability of operations.

Economic Impact

- The number of new jobs created related to construction and operations;
- The taxes the proposed development generates such as real property, sales and personal income taxes;

Brownfield Remediation

- The Proposer's proposed plans to address remediation of environmental contamination on the site in a manner which is in compliance with local, state, and federal statutes. This includes but is not limited to Suffolk County Sanitary Code, New York State Environmental Conservation Law, CERCLA, and/or RCRA;
- The Proposer's willingness, understanding of, and ability to enter the site into the New York Department of Environmental Conservation's Brownfield Cleanup Program.

Purchase Price

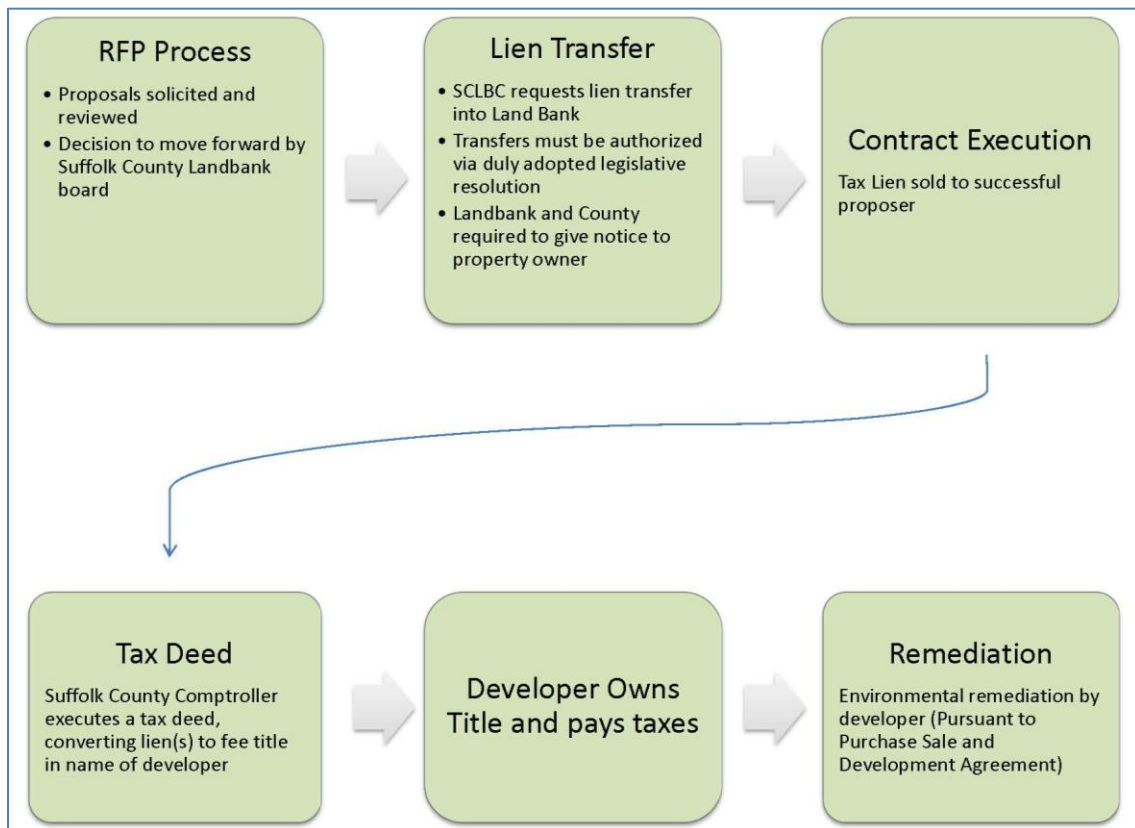

- The purchase price proposed. The SCLBC reserves the right to award proposals based on multiple criteria.

SECTION 3
DISPOSITION PROCESS

Under existing laws, Suffolk County is prohibited from disposing of a tax lien for less than the amount of the lien. This, combined with Suffolk County’s mandate that only the County purchase such tax liens as well as the desire to avoid the potential for liability for environmental cleanup costs, has prevented the County from acquiring title to potentially contaminated properties and disposing of those properties. Recognizing this as a recurring issue throughout the State, and its consequent drain on local economies, in 2011 the New York State Legislature adopted, Article 16 of the Not-For-Profit Corporation Law (otherwise known as and hereinafter referred to as the “the Land Bank Act”), to specifically address the need to revitalize tax delinquent and abandoned properties to restore them to productive use. See N.Y. Not-For-Profit Corp. Law Section 1600.

Section 1608 of the Land Bank Act provides, “[N]otwithstanding any other provision of law to the contrary, any municipality may convey to a land bank real property and interests in real property on such terms and conditions, form and substance of consideration, and procedures, all as determined by the transferring municipality in its discretion.” N.Y. Not-For-Profit Corp. Law §1608. Pursuant to section 1616 of the Land Bank Act, a municipality may enter into a contract to sell delinquent tax liens to a land bank for consideration that may be more or less than the face amount of the tax lien. N.Y. Not-For-Profit Corp. Law §1616(a).

Disposition process

SECTION 4
TERMS AND CONDITIONS OF RFP**Environmental Conditions**

The SCLBC does not make any representation regarding the presence or absence of hazardous materials or any other environmental conditions that may impact the value of the site, environmental liability or any future development thereon, however, the SCLBC will make available environmental reports as highlighted in the individual property description documents at www.suffolkcountylandbank.org . The SCLBC also encourages the proposer to request environmental reports from regulatory authorities such as the New York State Department of Environmental Conservation as may be appropriate.

Closing contingencies related to environmental conditions will not be permitted. The SCLBC requires that the Developer take the Site “as-is” and assume the obligation to remediate any environmental contamination, indemnify the SCLBC and the County for any claims that may be made against them in the future, and release the SCLBC and the County from any claims that Developer may have in the future arising out of the condition of the Site.

NYS Freedom of Information Law (FOIL)

All submissions for the SCLBC’s consideration will be held in confidence pending final execution of the contract(s) unless disclosure is required by law or judicial order. However, fully executed contracts are subject to the New York State Freedom of Information Law (FOIL), codified at Public Officers Law Article 6. Therefore, if a Proposer believes that any information in its submission constitutes a trade secret or is otherwise information which, if disclosed would cause substantial injury to the competitive position of the Proposer’s enterprise, and the Proposer wishes such information to be withheld if requested pursuant to FOIL, the Proposer shall submit with its Proposal a separate letter addressed to the primary contact referenced in this RFP, specifically identifying the page number(s), line(s) or other appropriate designation(s) of the Proposal containing such information, explaining in detail why such information is a trade secret or is other information which if disclosed would cause substantial injury to the competitive position of the Proposer’s enterprise, and formally requesting that such information be kept confidential. Failure by a Proposer to submit such a letter with its submission will constitute a waiver by the Proposer of any interest in seeking exemption of this information under Article 6 of the Public Officers’ Law relating to protection of trade secrets. The proprietary nature of the information designated confidential by the Proposer may be subject to disclosure if it is requested and the SCLBC deems it subject to disclosure or if ordered by a court of competent jurisdiction. A request that an entire Proposal be kept confidential may not be considered reasonable since a submission cannot reasonably consist of all data exempt from FOIL.

Confidentiality/Nondisclosure

Proposers to this RFP, and their representatives and agents and consultants, shall treat their proposals, applications, and all information obtained from the SCLBC in connection with this RFP (the “Confidential Information”) confidentially, and shall not discuss, publish, divulge, disclose or allow to be disclosed the Confidential Information to the press or other media, without the SCLBC’s prior written approval. In addition, upon submission of a proposal or application to this RFP, proposers, and their representatives and agents and consultants shall not discuss, publish, divulge, disclose or allow to be disclosed the Confidential Information to any other proposers or any other person, firm or entity, including press or other media, without the SCLBC’s prior written approval. - D. Compliance with this Section 9 constitutes a material term of this Agreement, and that it is binding upon the Parties and their affiliates, successors, transferees, and assignees for the period of this Agreement. The Parties also agree that the Seller may, at its discretion, seek a court order requiring compliance with the terms of this Section 9 or seek other appropriate judicial relief.

10. License. Upon taking fee title to the Premises pursuant to Paragraph 3(B) above and in the event BUYER fails to undertake and/or complete the environmental remediation obligations to be undertaken herein and pursuant to Exhibit D, BUYER hereby authorizes SELLER to access the Premises in order to complete such environmental remediation. This license shall remain in effect until a No Further Action letter or Certificate of Completion via a remedial program approved by the New York State Department of Environmental Conservation is obtained for the Premises by either the BUYER or SELLER.

11. No Joint Venture Created. The parties hereto mutually agree that by entering into this Agreement the parties hereto are not entering into a joint venture.

12. Survival of Obligations. This Agreement shall survive beyond the Closing. All indemnities contained herein and inuring to the SELLER and its respective assigns shall survive any termination or expiration of this Agreement.

13. BUYER Indemnification of SELLER and Hold Harmless. The foregoing indemnities shall apply notwithstanding the fault or negligence on the part of the SELLER or any of its members, directors, officers, agents or employees and irrespective of the breach of a statutory obligation or the application of any rule of comparative or apportioned liability; except, however, that such indemnities will not be applicable with respect to willful misconduct or gross negligence on the part of the indemnified party to the extent that such an indemnity would be prohibited by law. The above-described indemnifications shall survive Termination.

14. Force Majeure. Neither party shall be liable for any failure or delay in performance under this Agreement (other than for delay in the payment of money due and payable hereunder) to the extent said failures or delays are proximately caused by causes beyond that party's reasonable control and occurring without its fault or negligence, including, without limitation, acts of God, war, insurrection, terrorism, material and/or labor shortages, municipal government time lags, natural disasters or epidemics proximate to the Project. 15. Severability. In the event any provision of this Agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.
